BRAZIL

INTRODUCTION

The Federalive Republic of Brazil, which comprises half the continent of South America and is the only Latin American country deriving its culture and language from Portugal. It has an area of 3,286, 470 sq. miles and a population of 196.6 million as of 2011. The capital is Brasilia. The economy of Brazil is varied as any developing country in the world. however agriculture is the mainstay.

The .22s of Brazil are almost unknown, but it must be assumed that imports, probably from the U.S.A. fill most of their needs. As with most countries, Brazil is attempting to create its own industries and products to avoid spending so much on imports.

COMPANHIA BRASILEIRA DE CARTUCHOS. This seems to be the only manufacturer of .22s in Brazil. C.B.C. was founded in 1926 and has been producing ammunition for the military and police since 1926. They seem to have started producing .22s in 1950.

MAGTECH. Distributed in the USA from a facility Minneapolis, MN and for Europe in Hamburg , Germany., this product is produced in San Paulo, Brazil by CBC. From 1936 through 1979 the controlling shareholders were Remington Arms od USA and ICI of England.

THANKS

Special thanks to the following collectors for helping me with this project by supplying me with box images and sharing their knowledge. Presented in alphabetical order.

CBC—Super Veloz Issues

In 1964 C.B.C. changed headstamps and it also seems they changed boxes at that time. Some of these boxes are over-stamped "Ao Gaúcho" which was a Brazilian distributor located in San Paulo. Established in 1925.

- S-1 **.22 SHORT.** Yellow and red box with black and white printing, one-piece box with end flaps. "CB-3" h/son a brass case. Lead bullet. Variations noted:
(a) Red "U" on ends of box. Brass cases.
(b) Red "U" on ends of box. "Ao Gaúcha" over-stamp on top.

- S-2 **.22 SHORT.** Yellow and red box with black and white printing, one-piece box with end flaps. "CB-3" h/son a brass case. Lead bullet. Variations noted:
(a) "Ao Gaúcha" over-stamp on top.
(b) No "Ao Gaúcha" over-stamp on top.

- S-3 **.22 SHORT (PROOF).** Same as S-2(a) except for "Ao Gaúcha" overprinted on the top.

- S-4 **.22 SHORT.** Same as S-2, except the box now has thumb cut added to both end of the box.

- S-5 **.22 SHORT.** Yellow and red box with black and white printing, one-piece box with end flaps. "V-7" h/son a brass case. Lead bullet.. It is not understood why the "SUPER VELOZ" is missing from the top, sides and bottom on this box. It may be a standard velocity.

BRAZIL

MAGTECH

LR-4

All Magtech Rim Fire Cartridges are assembled using only the finest components manufactured under rigid quality control specifications. All cases are drawn from specially formulated brass and the resulting mixture is non-corrosive. Bullets are produced using certified alloys and are drawn to exacting tolerances. Safety, accuracy and dependability are our major concerns.

Tous les cartouches Magtech à percussion annulaire sont fabriqués avec les meilleurs éléments assortis de métaux contrôlés de qualité. Les coquilles sont en laiton à formule spéciale et le mélange de bronze n'est pas corrosif. Les balles sont tirées en alliage haute qualité avec des tolérances minimales. La sécurité, la précision et la fiabilité sont nos préoccupations majeures.

WARNING: To avoid possible injury: (1) Use only in firearms in good condition, designed and chambered for the caliber of the ammunition. (2) Always make sure that the barrel is free of any obstructions before loading. (3) If you fail to fire, keep muzzle pointed in safe direction, wait 30 seconds and avoid exposure to breath while reloading. (4) Always wear ear and eye protection while shooting.

ATTENTION: Pour éviter les accidents: (1) N'utilisez que des cartouches qui sont des armes de bon état, conçues et chamberées pour le calibre. (2) Assurez-vous toujours que le canon est libre de toute obstruction avant de charger. (3) Si l'arme ne tire pas, tenez le canon dans une direction sans danger, attendez 30 secondes et évitez d'exposer de l'ouverture de la chambre pendant le réarmement. (4) Portez toujours des protections d'oreilles et d'yeux pendant le tir.
